Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 July 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

1. Amendment and response filed by applicants dated July 14, 2009 have been entered. Claims 4 and 21 are pending. Claims 9-12 have been canceled. Claims 1-3, 5-8, 13-20 stayed withdrawn from consideration.
2. Claims 4 and 21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contain subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession of the claimed invention.

The amendment of claim 4 and 21 are considered NEW MATTER.

It is noted that the affidavit filed by Erik Fischer was based on the newest development within the area of analysis techniques which cannot be relied upon as enablement for the claims. In re Hogan 194 USPQ 507; In re Glass 181 USPQ 31.

Please note that enablement must be completed as of the time of filing and cannot be relied on or supplemented by the advancing level of skill in the art subsequent to application date.

In the affidavit no information as to what material was employed for the new measurement, what error was discovered at what time and why the specification as originally filed included the currently claimed product within its four corners. Please note that the product as originally disclosed in claim 4 is DL lactate hemihydrated having the XRD of claim 4. There is no evidence that any error in identifying the "chemical identity" of this product. Please note the Seddon reference for record which evidenced that level of ordinary skill in the art is that *"there should never be any double as to their chemical identity"*.

3. The amendment to the specification filed July 14, 2009 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added

material which is not supported by the original disclosure is as follows: Raloxifene DL lactate anhydrous or Raloxifene L-lactate anhydrate.

Applicant is required to cancel the new matter in the reply to this Office Action.

Correction of specification cannot be based on new development in techniques. No evidence can be found in the declaration that when, how and what error occurred and when, how and what error was found with factual record to support any correction.

4. A claim to the priority benefit cannot be granted since no antecedent basis for the currently amended claims are found in the priority documents.

5. The rejection of claims 4 under 35 USC 112 second paragraph, first paragraph are maintained when the new matter is removed and the claim is restored to its original version.

In addition, there is no factual support for attorney's argument that "*the two enantiomers coexist as pairs in the same unit cell of the crystal lattice*". No unit cell information was provided, even the chemical identity or the molecular formula was not affirmed by the declaration.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
